

**The New Bloomfield Village Road Committee  
November 2015 Minutes**

**Friday, November 13, 2015 ~ Via email and phone communications**

The New Bloomfield Village Road Committee has composed, edited and submitted a mailing for the Bloomfield Village residents to the packet distributed to Trustees for their upcoming Tuesday, November 17, 2015 Board meeting. This mailing contains a cover letter with Q&A on the backside, the RCOC requested Expression of Interest form, and a pre-addressed stamped envelope. The mailing will be prepared in full over the weekend and available to mail come first of the week. Jeff Kern, standing in for our NBVRC Chairman Sean Metrose who will be unavailable, has graciously offered to make an updating presentation to the Board of Trustees on Tuesday. Materials with Committee contact information will be made available for the Board.

The committee will continue to meet and discuss alternative road improvement options, however this endeavor (Expression of Interest) is currently a priority as it enables Bloomfield Village to have a FREE engineering study to determine the actual condition, options and associated costs to improve our roads. Once the study is complete and presented by the RCOC, ALL options will be back on the table, and all viable options will be considered. Village residents are encouraged and welcome to join this voluntary committee.

**Tuesday, November 17, 2015 ~ Hackett Hall 7:00pm**

Jeff Kern deferred to committee member, Susie Kern who made a presentation to the BV Board to update the trustees on the Expression of Interest mailing and the volunteer committee contact information, as well as our venues for continued communication (the village website and bulletin). The Board recommended that the committee submit road improvement minutes and documents to Art Atkinson, the Village Manager, for the Bloomfield Village website before proceeding with the mailing. Susie Kern has volunteered to be the committee communication liaison to Art for the website. The New Bloomfield Village Road Committee November Board Meeting Update Report was submitted to the Board for their minutes.
