

The New Bloomfield Village Road Committee
Bloomfield Village Board Report ~ Update
December 15, 2015

Our committee President/Chairman, Sean Metrose to the Bloomfield Village Board, presented a brief update summarizing the information below.

1. The Expression of Interest mailing did go out this past month to our 1900-plus residents.
2. The mailing went to ALL residents as the RCOC suggested and confirmed that Cranbrook, Covington and Glengarry residents should be informed and their receiving the mailing would not hinder the process.
3. Hundreds of replies have been received by Art here at Hackett Hall, and they will be opened and recorded sometime this week.
4. Again, the December 31st deadline is for our committee's convenience as the formal process for the RCOC will not begin until the BV actually submits the accumulated Expression of Interest forms... the sooner we have 51% to submit, the sooner the RCOC will begin their FREE and NON-BINDING engineering study of our roads.
5. The BV Roads Committee minutes, Expression of Interest Letter and Form, and updated/corrected Q&As (specifically Q#2 and Q#3) have been posted to the Bloomfield Village website.
6. Few questions have been submitted/referred to be clarified/answered... We plan to update the website with any new questions in January.
7. It has come to our attention that some would like to discuss Assessments... their requirements, obligations and effects on home values... As this is important and valuable information, we would like to stress that there is currently no road improvement project to consider at this time. We are still at the beginning of our research in the process of our road improvements.
8. We have received 6 requests from residents asking to join our volunteer road committee, and again welcome whoever would like to

participate.

9. We plan to have a meeting in January... the date and time are yet to be confirmed.
